Phone: (812) 379-1555 • Fax (812) 379-1559

March 27, 2020

Following is an update on COVID-19 Testing. The figures reported below incorporate tests run through the Indiana State Department of Health (ISDH) or commercial laboratories, the number of positives of Bartholomew County residents, the number of totally negative results and the number of total results pending. **Please note, the total number of total tests includes submissions for out-of-county residents. The positive count listed below is only for Bartholomew County residents**. These figures will be updated and released daily. At time of release, they reflect the latest data collected locally, which may be released in advance of statewide updates through ISDH.

COVID-19 Testing	Total Tests	Positive Results Barth Co Residents	Negative Result	Result Pending
Total	350	6	113	225

As planned and prepared for, Bartholomew County Health Department and Columbus Regional Health continue following the guidelines of the Centers for Disease Control and Indiana State Department of Health for the care of these confirmed cases, and the protocols for healthcare staff and community contacts as identified.

The COVID-19 Resource Center at 812-379-4449 remains the best source for those with symptoms and care questions in Bartholomew County.

Brian Niedbalski, MD
Health Officer
